ASM Australian Strategic Materials Rare Earths. **Critical Minerals. High-Tech Metals.** 31 October 2022

Disclaimer & Competent Person's Statement

Forward Looking Statements

This presentation contains certain statements which constitute "forward looking statements". Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as "may", "will", "expect", "plan", "believes", "estimate", "anticipate", "outlook" and "guidance", or similar expressions, and may include, without limitation, statements regarding plans; strategies and objectives of management; anticipated production and production potential; estimates of future capital expenditure or construction commencement dates; expected costs or production outputs; estimates of future product supply, demand and consumption; statements regarding future product prices; and statements regarding the expectation of future Mineral Resources and Ore Reserves.

While these forward-looking statements reflect the Company's expectations at the date of this presentation, they are not guarantees or predictions of future performance or statements of fact. The information is based on the Company forecasts and as such is subject to variation related to, but not restricted to, economic, market demand/supply and competitive factors.

Forward looking statements are only predictions and are subject to known and unknown risks, uncertainties, assumptions, and other important factors that could cause the actual results, performances or achievements of the Company to differ materially from future results, performances or achievements expressed, projected or implied by such forward looking statements.

Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date thereof. Except as required by applicable laws or regulations, the Company does not undertake to publicly update or review any forward-looking statements, whether as a result of new information or future events. The Company cautions against reliance on any forward-looking statements or guidance, particularly in light of the current economic climate and the significant volatility, uncertainty and disruption arising in connection with COVID 19.

Information on likely developments in the Group's business strategies, prospects and operations for future financial years and the expected results that could result in unreasonable prejudice to the Group (for example, information that is commercially sensitive, confidential or could give a third party a commercial advantage) has not been included below in this presentation. The categories of information omitted include forward looking estimates and projections prepared for internal management purposes, information regarding the Company's operations and projects, which are developing and susceptible to change, and information relating to commercial contracts.

Competent Person

The information in this Presentation that relates to ASM's Mineral Resources or Ore Reserves is extracted from ASM's ASX announcement titled "Information Memorandum and Demerger Booklet" released to ASX on 29 July 2020 and is available at www.asx.com.au. ASM confirms that it is not aware of any new information or data that materially affects the information included in that original market announcement and that all material assumptions and technical parameters underpinning the estimates in that announcement continue to apply and have not materially changed. ASM confirms that the form and context in which the findings of the Competent Person are presented have not been materially modified from the original market announcement.

Previously reported information

Information prepared and disclosed under the JORC Code has not materially changed since last reported in Company's ASX announcements available to view on the Company's website. The Company is not aware of any new information or data that materially affects the information included in this presentation and confirms that the material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

ASM

Building a global rare earths and critical minerals business to provide the high-tech metals needed to solve the challenges of today and the future.

Korean Metals Plant key facts

Located in Ochang Foreign Investment Zone

Approximately 115 kms south of Seoul, Korea

NdPr metal & NdFeB alloy

CuTi alloy using LK Process

Korean Metals Plant milestones and targets

Milestones achieved

- ✓ Nov 2020 Acquired Ziron Tech¹ and R&D team joined ASM Progressed development of LK Process
- ✓ Mar 2021 Signed MOU with Chungbuk-do Province for KMP site²
- ✓ July 2021 Commenced construction
- ✓ Apr 2022 Completed construction³
- ✓ May 2022 Opened KMP⁴
- ✓ Jun 2022 Completed phase 1 equipment installation
 Secured KDB credit facility for AUD 24.4 million⁵
- ✓ Jul 2022 Commenced NdPr metal production and ramp up
- ✓ Sep 2022 Signed first sales agreement⁶
 Delivered first saleable product
 First CuTi production using LK Process

Targets

- > 2H 2022 Complete NdFeB strip caster commissioning Secure first sale NdFeB alloy
- H 2023 Ramp up production of NdFeB alloy to 600 tpa, aligned to sales
- > 2H 2023 Install Phase 2 NdPr equipment for a NdFeB alloy capacity of 3,600 tpa Secure sales of CuTi alloy
- > 1H 2024 Ramp up to 5,200 tpa production, aligned with customer sales (comprising 3,600 tpa NdFeB alloy and 1,600 CuTi alloy)

¹ASM ASX Release: 3 Nov 2020, ASM Completes acquisition of Ziron Tech / ²ASM ASX Release: 9 Mar2021, ASM signs MoU with South Korean Provincial Government for Metals Plant location / ³ASM ASX Release: 29 Apr 2022, Quarterly Activities Report to 31 March 2022 / ⁴ASM ASX Release: 12 May 2022, ASM's first high purity critical metals plant officially opens in South Korea / ⁵ASM ASX Release: 28 Jul 2022, Quarterly Activities Report to 30 June 2022 / ⁶ASM ASX Release: 8 Sep 2022, *First sale of Neodymium Praseodymium metal from Korean Metals Plant*

Korean Metals Plant targeted financials

Targeted financials based on 5,200 tpa production comprising:

3,600 tpa NdFeB alloy 1,600 tpa CuTi alloy USD 40 million annual EBITDA

USD 270 million annual revenue

Assumptions:

- Final Production mix, revenue and EBITDA are estimates only and will be subject to customer demand and could include Nd, NdPr, CuTi and NiTi metals, NdFeB alloy or Ti powder.
- Reliable published benchmark data for KMP end products is not available. Raw materials and sales price assumptions are based on key raw material inputs from Argus (5 May 2022) and Adamas (April 2022) and ASM's assessment of achievable sales pricing. This remains uncertain until customer sales contracts are secured.

Dubbo Project key facts

Further 50 years of resource¹

Construction readiness

All major approvals in place Land and water licences owned

Advanced flowsheet

Developed in partnership with ANSTO over 16 years

Workforce opportunities

Up to 1,000 local jobs during construction

270 ongoing local jobs

Compelling ESG credentials

Close to established infrastructure

25kms from Dubbo, NSW Australia 400kms northwest of Sydney

Dubbo Project delivers strong financials

23.5% Pre-tax IRR AUD 2,361 million Forecast pre-tax NPV AUD 425 million Annual Free cash flow¹ AUD 1,678 million Capital cost estimate including contingency

Refer: ASX Release: 7 Dec 2021, Dubbo Project Optimisation Delivers Strong Financials.

All data and financial information on this slide is taken from the Optimisation Study Work. The Company confirms that the material assumptions underpinning the estimates in the Optimisation Study Work announcement continue to apply and have not materially changed. Key assumptions are: Exchange Rate (A\$:US\$) - 0.75; Discount Rate (real, post-tax %p.a.) 8.0%; Corporate Tax Rate (%) 30%, Long Term Real price assumptions used in the 2021 Optimisation Study table 9, capital estimates in section 13.4, and matters described in Annexure A. ¹This amount represents the average of years 7-10 in the Optimisation Study Financial Model.

² Margin is defined as revenue minus opex.

Dubbo Project milestones and targets

Milestones achieved

- ✓ Jun 2021 Received AUD 200m Letter of Support from Export Finance Australia¹
- ✓ Jul 2021 Signed a conditional framework agreement with South Korean consortium (KCF)²
- ✓ Dec 2021 Finalised Optimisation Study Work³
- ✓ Dec 2021 Signed a Joint Statement of Cooperation with KOMIR⁴
- ✓ Feb 2022 Received LoI from K-Sure to consider Project for export credit support⁵
- ✓ May 2022 Received USD 15m from KCF Energy

Revised the conditional framework agreement with KCF and removed exclusivity⁶

- ✓ Jun 2022 Awarded EPCD contract to HEC⁷
- ✓ Sep 2022 Signed non-binding MoU with KDB to establish a rare earths global supply chain⁸

Targets

Secure bankable offtakes 2H 2023 \geq Equity from strategic partner(s) /government(s) HEC commence EPCD work Commence Korean and Australian ECA covered debt process HEC complete EPCD work and submit EPC offer ➢ 2H 2024 **Complete Project Financing** Take FID Award EPC Commence construction 2H 2026 Complete construction 2027 First production and revenue

¹ASM ASX Release: 28 Jun 2021, *Export Finance Australia issues letter of support for the Dubbo Project* / ² ASM ASX Release: 7 Jul 2022, *ASM signs \$US250m framework agreement with South Korean consortium for 20% in Dubbo Project and offtake from Korean Metals Plant* / ³ ASM ASX Release: 7 Dec 2021, *Dubbo Project Optimisation Delivers Strong Financials* / ⁴ ASM ASX Release: 14 Dec 2021, *Joint Statement of Cooperation on Critical Metals signed between ASM and KOMIR (KORES)* / ⁵ ASM ASX Release: 29 Apr 2022, *Quarterly Activities Report to 31 March 2022*.
